

WICANDERS PARQUET

Inspired by Nature

Timeless Elegance and Highest Quality

AMORIM

Natural living is timeless!

In the long history of craftsmanship the processing of wood and its use in house construction play a special role.

Amorim holds on to this tradition by using the latest standards in the production of **WICANDERS** Parquet engineered timber floorings. The main focus is on conserving natural resources in all phases of the manufacturing process – starting from the selection of the timber up to the final finish. Amorim developed all necessary technical solutions and processes in harmony with the nature and in compliance with highest social and environmental standards. Our philosophy is one of deep respect for the nature.

Our **WICANDERS** Parquet collections Kentucky, Manor House, Victoria and Basics represent a large variety of visuals. Characterful Oak in different shades, distinctive finishes and with different characteristics. Simply beautiful!

WICANDERS PARQUET

Deep smoked

KENTUCKY COLLECTION

Rustic charm, antique surfaces

Craftsmanship that can be seen and felt

The natural structure of the wood plays a significant role in the production of every single Kentucky plank. Its unique antique look is the result of the work of expert artisans who work the texture by hand with meticulous care. Each plank tells a story of craftsmanship with its carefully carved details. Special brushing processes emphasize the grain of the wood, highlighting the originality of the wood and giving a nostalgic flair at the same time. Traditional smoking techniques and coloring processes create a comprehensive spectrum of interesting shades - from light and natural color tones up to golden or saturated deep brown tones. Kentucky planks convey soul and coziness through warm colors, a rich patina and lots of character.

VICTORIA COLLECTION

All Planks are unique !

Experience Oak 1-strip planks with subtle undulations

Our Victoria Collection is all about handscraping texture. It is a hand-textured Oak flooring and it is a testament to the artistry and skill of human hands. Their archaic character comes from the individual treatment of each single plank, it is not possible to produce this haptics and optics by machine. After the drying process each plank is individually crafted by hand with its gentle undulations, carefully carved details and embossed knots. Not one plank is similar to the other, instantly adding warmth, personality and history to a room. These impressive and elegant floors are packed full of character, topped with an oiled surface to protect the wood from moisture and dirt. The 6 different colors of the Victoria collection provide a lively and authentic impression

BASICS COLLECTION

Expressive Oak and impressive XXL formats!

For those who want to enter the world of parquet, Amorim provides the perfect choice. The Basics Collection offers solutions for everyone, presenting a wide selection of expressive, modern and brilliantly practical Oak 1-strip Planks. The floors come with a gentle brushing that emphasizes the texture of the grain. Lovers of darker colors can enjoy smoking treatment which gives the planks a warm depth of color and a beautiful play of shades between the boards. A four-sided bevel ensures that each plank is subtly distinguished from the next, giving the floor a spacious appearance. The Basics Collection comprises different formats, gradings and finishes to meet everybody's taste – from the extra rustic to a more quiet version, from standard size to XXL grand formats.

The planks with Loc & Fold connection system for floating and glueless installation have a size of 1900x190 or 2200x240/260 mm and a real wood veneer of approx. 3 or 4 mm.

WICANDERS PARQUET

Real craftsmanship!

Give your rooms a very special, authentic atmosphere visually and haptically!

No matter whether handscraped, brushed, products with big cracks, distressed or with a high amount of knots - the hand-crafted products of the Wicanders Parquet collections are unique, hardwearing and durable. Handmade surfaces give a very natural look and the extensive works enhance the pure natural structure of the wood. Handcrafted flooring is a true labour of love!

AMORIM CORK ROLLS UNDERLAYMENT

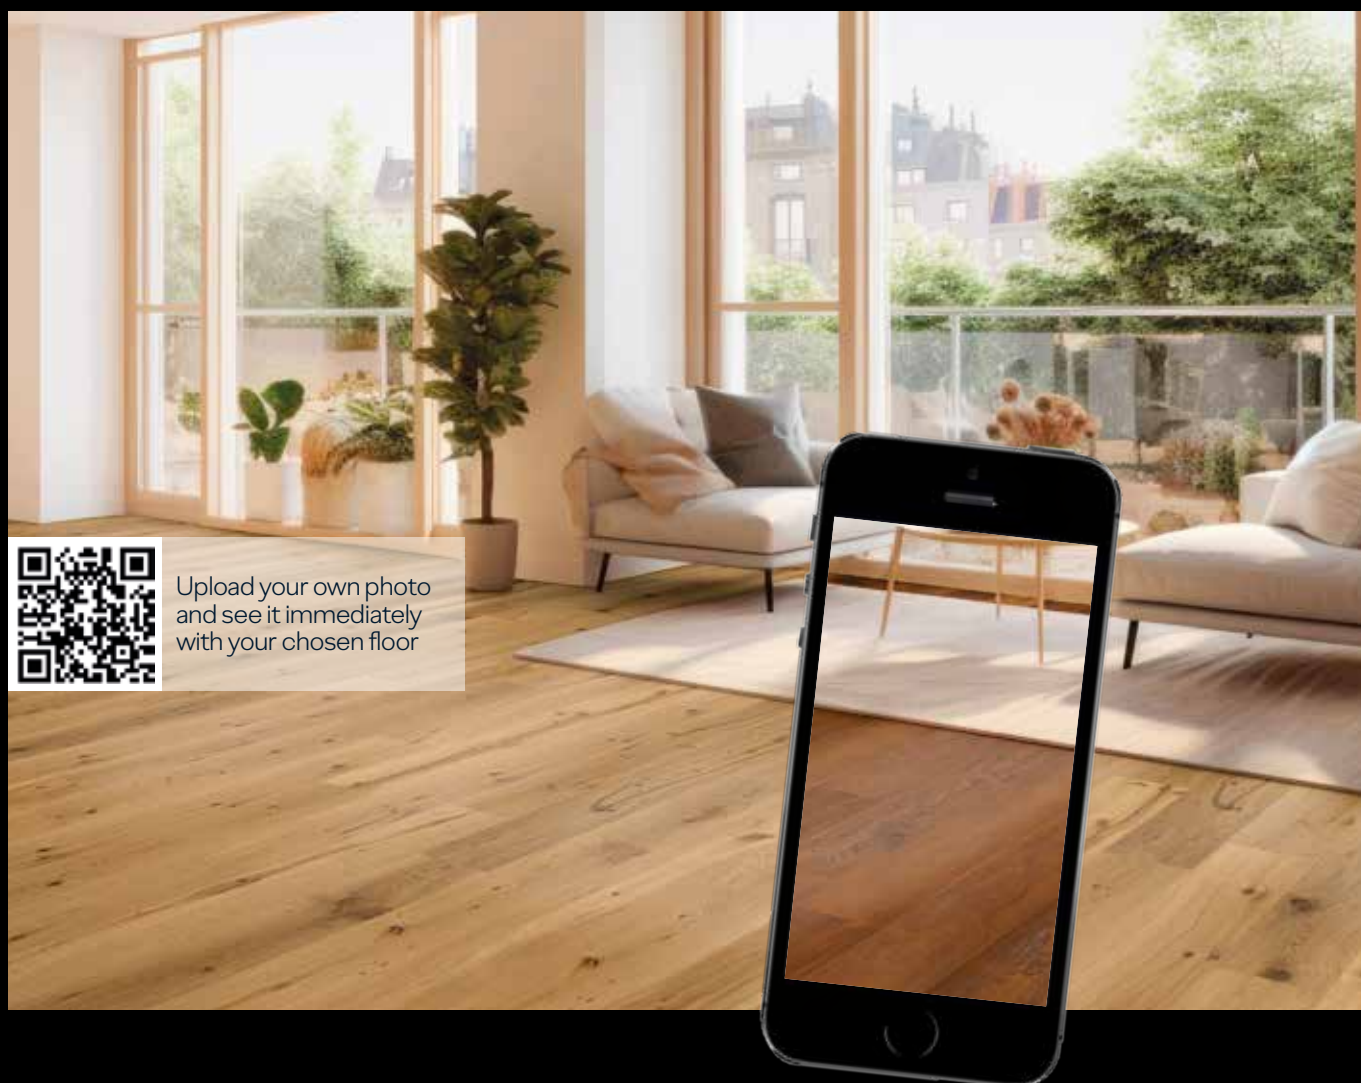

Always the right choice!

Cork rolls underlay for engineered timber floorings

Being a 100 % natural raw material, agglomerated cork underlayment has many benefits. Choosing our cork rolls will guarantee the maximum in walking comfort and durability and adding to the longevity of the floor. For impact noise and thermal insulation. Suitable for installation under engineered timber floorings.
